To Raise Lusitania in Five Sections

COLOSSAL TASK OF SAWING HUGE STEEL HULL OF HISTORIC LINER

(Edmonton Journal)
The Lusitania, sunk by a German submarine in May, 1915, is to be raised by sawing her gigantic hull in parts.
Each of these parts when lifted is to be floated by means of pontoons and carried away to a specially constructed dock, where everything of value will be removed.
This prodigious undertaking will shortly be under way, and it is believed that at least \$500,000 in money, gems and metal will be recovered. For many months dozens of plans for raising the Lusitania have been considered and rejected. The extraordinary operation to be described is the only one which offers a chance of success. It will cost probably five millions of dollars before it is done, but the profit of ten millions upon the scheme more than makes it worth while.
The cutting plan has been successfully tried out on two smaller vessels, which did not sink, so great a depth as the Lusitania.
It is the size of the sunken liner and the great depth to which she descended that presented what for a time seemed insurmountable difficulties to her recovery. There are 240 feet of water over her. Pressure of the atmosphere upon the body at sea level is approximately three pounds to the square inch. The pressure upon the hull of the 240 feet deep sea is a little over one hundred pounds to the square inch. The limit to which the hull can descend is about eighty feet. At 240 feet the water pressure will crush him like an egg.
How, then, can human hands carry out such a colossal operation as lifting the huge steel hull, fastening the immense chains about the sections and drawing them up to the surface, doing this work so far beneath the surface of the sea under such stupendous pressures?
It is impossible to construct caissons to withstand the pressure at 240 feet. The mind turns naturally to submarines as the vehicles for the salvagers. Submarines, however, are not to be used here, but a form of submarine will be used in the salvage. The inventors of the system are secretive. Enough has leaked out, however, to indicate that a form of submarine will be used specially constructed to withstand a pressure over three times that upon the Lusitania. These machines will be circular and capable of going down to a depth of 240 feet. Each circular submarine or movable diving bell of great power, and by the aid of these the workmen will be able to penetrate the wreckage of the ship in any direction probably away in pairs. By means of the magnets the machines can be attached to the side of the steel hull as desired, and will hold firmly to the hull during the cutting.

From the machines extend drills and saws and magnetic cranes, operating through air locks and by electrical motors. After the plates of the hull and the decks have been cut through there will still remain steel bulk heads and stanchions, beams, but by means of the extension arm used with the crane the interior of the vessel can be reached. Lusitania is 785 feet long and 60 feet deep, with a beam of 38 feet, so it will readily be seen that the operations will be extremely lengthy, and would be thought extensive even if the ship were of wood. As the ship has been sawed into sections, specially designed pontoons will be floated over them and will be filled sufficiently with water to sink them almost to the upper works of the vessel. These pontoons will contain motor and pump and will have electrical connections with the tender ships on the surface. A sufficient number of pontoons will be attached to each section by books and cables and by great chains slung beneath the line's keel. When the pontoons are raised and the water forced out, the buoyancy of the pontoons will cause them to ascend with the sections, pulling the hull with them. As the sections rise the water is slowly pumped out of them. The pontoons will probably have a lifting power of some three hundred tons. The largest vessel hitherto raised by this system of displacement was of 8,000 tons displacement.

IF A GIRL'S WORTH HUGGING AT ALL SHE'S WORTH HUGGING WELL.
A youth in New Jersey lost his motor license for driving his car with one hand while he hugged a girl with the other.
We concur with the verdict. While confessing to using a little common practice, we regard it as a truism that any girl who is worth hugging at all is worth hugging with both arms. The youth was not only a reckless driver, he was also guilty of court circuiting. Any bird who counts himself a motorist and who should not be permitted to drive a machine or hug or anything, nor only his motor license, but his driving license should have been annulled.

"Two hands when you're learning," say we—Winnipeg Free Press.
We might say in passing that a few of the Red Deer youths are in danger of losing their license.

LOCAL NEWS

Ernest George is in the city for a couple of weeks' holiday.

W. Cookson returned from his holiday on Saturday evening.

Miss Elizabeth Hadley, of Huxley, is visiting with Mrs. E. L. Gregg.

Dr. Cook, of Ponoka, was visiting with Dr. and Mrs. Dick over the week end.

Rev. A. Campbell, of Royalton, Minn., is visiting with Mr. and Mrs. J. A. Carnwell.

Mr. McDonald, of Los Angeles, is visiting her brother, Mr. D. Pyke, of this city.

Mr. and Mrs. Len. Gaez and family, of Edmonton, are holidaying in the Drum Co. Hotel.

Don't forget the Agricultural Show in the Armouries, on Thursday, August 19th, 1920.

J. P. Krause passed through Red Deer on his way to Rocky Mountain House on Monday.

Howard Malcolm and Roy Pidgeon left on Monday morning for a holiday at Sylvan Lake.

E. L. Meers, of the Imperial Bank, Greencourt, Alta., has returned to duty after a visit with his parents at Condon.

Ted Kent, who has been visiting friends at Sylvan Lake, will be home for his home in Edmonton on Monday afternoon.

There will be a dance in the Springs school house, under the auspices of the U.P.A. local, on Friday evening, August 6th. Everybody invited.

Mr. M. H. Rogers, Coronation, and Mr. G. E. Rogers, Weaver, Iowa, are visiting their brother, Reeve Rogers, of this city.

The Scouts' Scoutmaster, Calender, got into camp at Sylvan Lake today. Parents and friends who wish to go to the meeting at the hotel, please leave same at Hamilton's Bakery any week day, when they will be forwarded with supplies.

Mr. and Mrs. W. Rutherford, of Galtier, will be on Sunday afternoon, with Mr. and Mrs. Rutherford, who is on his way to Calgary, where he will continue with the McMillan family.

Mr. McDonald, of the Provincial Police, Nordberg, has been spending his holidays at Red Deer, accompanied by Mrs. McDonald. He returned to Nordberg on Friday last. Mr. McDonald and the family will be in Edmonton before they return home.

Mr. Chas. Clarke, editor of the High River Times, Mrs. Clarke and family, moved up on Saturday from High River. They visited Mr. and Mrs. Murphy in this city, and will leave for the hotel at Sylvan Lake on Monday. Mr. Clarke says the crops looked fine all along his journey.

Mr. Watson Hall, trainmaster at Red Deer, will receive congratulations on his promotion to be Superintendent of the Cranbrook division of the C.P.R. Mr. Hall has been promoted to be an assistant of the company here, and his promotion is well merited. Mr. Hall will be in the city on his duties. Mrs. Hall and children will leave in a week or so.

The regular monthly meeting of the Council of North Red Deer was held on Monday evening last. Reeve Durand and Councilor Harry being present.

Accounts as follows were passed for payment: Smith Lumber Co. \$7.50, J. Holman \$10.00, Rich \$13.20, P. B. Kent \$4.00, Alberta Government, for Mothers' Allowance, \$55.00.

Quotations for 300,000 tons of iron and green feed by Louis Marion's horse was submitted to Council by J. R. Warner, with a request that the Council pay same, as there was no poundkeeper to take care of the horses when they had been placed in pound.

Moved by Reeve Durand that the account be filed. Carried.

Moved by Reeve Durand and passed introducing Miss Whitt as poundkeeper.

The Veterans' and Citizens' Band provided the music at the U.P.A. picnic at Clive on Friday last. The weather was perfect all day, and the picnic a success, the committee in charge expressing themselves pleased with the music provided.

The Band have received a letter of appreciation from Scoutmaster H. E. Calender for their playing for the Boy Scouts at their church parade and presentation Sunday evening last.

The Bandmaster and members deeply regret the departure of Mr. Pritchard, solo cornetist, who leaves today for Vancouver, B.C. He has been of great assistance to the Band, and his loss will be felt.

The Band gave another of their concerts on Sunday evening on the city square. As the citizens realize the enjoyment to be obtained from these concerts, the attendance is becoming larger, and on Sunday night there was a big crowd present.

PENHOLD NOTES

The C.P.R. are painting the depot section house.

We have to congratulate John Vasek on the arrival of a little boy.

Mrs. Geo. Martin and daughter arrived in Penhold last Saturday.

Mrs. Sills left Penhold for a visit to Harvey, Bessie in the States.

The windstorm on Monday afternoon blew over the drive shed of the Anglican church.

Service next Sunday in the Presbyterian church will be conducted by the Rev. C. F. McCurtie.

The Rev. Harrison and family, together with Mrs. McCurtie, are holiday making at Stettler.

The Misses Eyer returned last Saturday from a few weeks' visit to their brother in Saskatoon.

As many delegates from Penhold as possible should attend the Institute of the U.P.A. local, on Friday evening, August 11th, held in the Oddfellows' Hall, Innisfail.

Come to the dance next Friday night, August 6th, in the Memorial Hall. The music will be furnished by the Red Deer G.W.A. orchestra. Supper served at mid-night.

The W. L. Library is now open to the public in its new quarters in the memorial hall. New books are constantly being added. All membership fees are used in purchasing books. Hours are as follows: Monday and Saturday from 10 to 12, Thursday, p.m., from 6 to 8, and Saturday, p.m., from 10 to 12. The librarian, Miss Eyer, is in charge once more.

Charles F. Carswell, A.D.M.T.T., youngest son of the editor, was on Monday last presented to the Honorable Mr. Justice Simons, and by him admitted to the bar of the Province. He was presented to His Lordship by J. C. Boyd, K.C., one of the Benchers of the Law Society.

Charles F. Carswell, A.D.M.T.T., youngest son of the editor, was on Monday last presented to the Honorable Mr. Justice Simons, and by him admitted to the bar of the Province. He was presented to His Lordship by J. C. Boyd, K.C., one of the Benchers of the Law Society.

MRS. J. G. HANNA PASSES AWAY

Sergeant J. G. Hanna, of the Royal Canadian Mounted Police, Calgary, has the sympathy of a host of friends in Red Deer in the death of his beloved wife, which took place in Calgary on Thursday of last week, from typhoid and other complications.

She leaves behind her husband and two children, one aged mother and two brothers, one living in Calgary and the other west of Olds, to mourn her sudden death.

The funeral took place on Sunday afternoon, service being held at the Presbyterian Church, and interment taking place in the Union cemetery.

Sergeant Hanna was for many years a member of the R.N.W.M.P. and was a very popular officer in Red Deer, where his sterling worth and splendid service made him a host of friends, who will extend to him their sympathy in his great loss.

Come to the dance next Friday night, August 6th, in the Memorial Hall. The music will be furnished by the Red Deer G.W.A. orchestra. Supper served at mid-night.

The W. L. Library is now open to the public in its new quarters in the memorial hall. New books are constantly being added. All membership fees are used in purchasing books. SOIL DRIFTING CAN BE STOPPED

Lethbridge, July 29.—Soil drifting in Alberta and Saskatchewan, which last spring caused millions of dollars of damage to the newly planted crop, can be stopped if the farmers use the right methods. Professor Jardine of the Kansas State College of Agriculture told irrigation and dry farmers attending the irrigation congress here Thursday. It was stopped in a sixty-six thousand acre tract in Kansas six or seven years ago and the land which drifted the worst then is now raising 25 to 40 bushels of wheat to the acre. Scrap the disc harrow, forget the dust mulch, which for years was the fetish of the dry farmer, and use implements which will leave the clods on top and the fine soil underneath, and the soil drifting problem will be solved. There is another solution, get as much irrigation as possible and the soil will never drift where land is under the ditch. He urged that every possible acre in Western Canada for which water can be secured should be irrigated.

Denn House of the Alberta University faculty of agriculture, announced that a chair in farm engineering was being opened with Professor Smith in charge. Professor Smith is now in Berkeley, California, studying irrigation in that state, and will be able to give Alberta irrigators the result of his experience shortly.

More delegates arrived for the convention Thursday morning and there have been double the number of registrations so far compared with any previous convention. No resolutions have been dealt with so far. Irrigationists from Saskatchewan, Manitoba and Alberta who have been in session here for two days, were this afternoon given a demonstration of irrigation of the prairie at its best, when they were taken through the Lethbridge-Coadale irrigation block and shown field after field of wheat which will yield forty to fifty bushels, and alfalfa which is cutting two tons to the acre on the first harvest, treated to home grown straw-berries and cream by John Hamilton, who owns the most typical irrigation farm in the block, ending up at the experimental farm where supper was served by the city of Lethbridge.

At the afternoon session, Deputy Minister Craig, of the Alberta department of agriculture, made the announcement that his department was beginning to see that it was better to help the farmers make good on their farms than to be continually providing relief in dry seasons and therefore more attention would be paid to irrigation in future.

TWO DEMONSTRATION FARMS
Two demonstration farms have been secured, one at Raymond and one at Gleichen, both of which will be irrigated, and they would be in charge of expert irrigationists. Schools of agriculture in connection with them will open this fall. He also announced that in connection with all the department schools an effort will be made to follow out the Kansas scheme of giving the farmers a practical instruction one day in each month.

Professor John Bracken, of the Manitoba college of agriculture, continued the discussion of the soil drifting problem in a highly technical address which was followed by over four hundred practical farmers present. Professor Murray, who is in charge of the Noble Foundation his thirty thousand acre farm, also spoke on this question and all agreed that soil drifting can be overcome.

Fire insurance companies operating in the Dominion in 1918 experienced one of the most prosperous years of the whole half century over which the records of the department extend, says a report of the insurance branch of the department of finance.

The Aftermath of Action

(By Henry Chas. Suter)

NEVER AGAIN

He had come through the campaign and many were ready to question him as to his action in it he were called to pass through the same experience again. It was too big a question to ask of any man and it was a yes and no sort of answer he would give.

For instance, in the first place, he was conscious that since he had passed through that crisis he had lost something, and it was something mighty important. In fact, practically all the men who passed through that struggle lost it. It was youth.

So if you were to ask this man concerning a repetition of that experience, he would naturally feel the necessity to have youth renewed. He had become old very old—and his desire was not to have youth renewed because he knew that the spirit of youth is always too shrewd. Also with the energy of youth he knew that it had a remarkable power that slighted the things that were dazzling and far too bright. In fact, he was conscious that the impetuosity of youth made one's eyes heedless with too force an activity and the fact more than once had blinded him. It is the price we pay for youth. It rushes us headlong into adventure and belabors our hearts and blinds our eyes. So this man said, "No," he would rather now be satisfied with the lesser lights of time; he needed half lights and would leave youth behind.

Would he care to relive past years? He recalled all those wild hopes and fears that had rent his soul. Not that they were made him a coward. Oh, no, though he would admit there were times when he was afraid but he would not run away. So he would not have those past years repeated only for one reason only one. His force was spent, that was all, his force was spent, and that is saying a great deal. Yet he did not doubt all that he had experienced in his prime of life, he taught him in that experience something of life, the larger life, and had also taught him not to be afraid of death. So you see though he had lost something he had found something.

RHEUMATISM FOR OVER 16 YEARS

No Return Of The Trouble Since Taking "Fruit-a-lives"

108 CHURCH ST., MONTREAL.
"I was a great sufferer from Rheumatism for over 16 years. I consulted specialists; took medicine; used iodine; but nothing did me good. Then I began to use 'Fruit-a-lives', and in 15 days the pain was easier and the Rheumatism much better. Gradually, 'Fruit-a-lives' overcame my Rheumatism; and now, for five years, I have had no return of the trouble. I cordially recommend this fruit medicine to all sufferers."

P. H. Mc HUGH.
Box a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-lives Limited, Ottawa.

CANADA THINKING AHEAD OF EUROPE AND HERSELF, TOO

Halifax, July 25.—"We have come to recognize that not only is Canada thinking and speaking today ahead of Europe, but she is thinking and speaking ahead of herself," said Lord Burnham today, in acknowledging the welcome Halifax and the province of Nova Scotia tendered the overseas delegates to the Imperial Press Conference.

"It is because we believe that you will continue to think and speak ahead of yourself that we are glad to be here today," continued the chairman of the conference.

Speaking in the historic legislative chambers of the province, Lord Burnham replied to the formal welcome expressed by his honour MacCallum Grant, lieutenant-governor of Nova Scotia, congratulating the province on the great part it has played in the life of Canada, practically laying the foundations of federation and the growth of national life based on the "two great types of civilization, the varied and complementary qualities of both races having made for the prosperity and strength of the Dominion."

Lord Burnham reiterated that the conference was not in Canada for "propaganda," but that the delegates had come to see Canada for themselves, and were convinced that they would not go away disappointed. To the maritime provinces he suggested that it was not through so much that Europe had overlooked them, to the benefit of other parts of the Dominion, but that the people of the maritime provinces had overlooked themselves, not doing themselves justice in the eyes of those Europeans who would like to make their homes and interests in Canada.

At the formal reception this morning, Hon. P. K. Keir of Australia spoke for the delegation from the dominions, in acknowledging formally the welcome extended to the conference, which had for its object the prosperity of the empire.

35,000 HARVESTERS TO LEAVE MONTREAL FOR WESTERN FIELD

Montreal, July 29.—The first train bearing its quota of 35,000 harvesters for the western provinces, will leave Montreal on August 3, and the next will leave on August 15. Canadian Pacific railway officials state that they do not think there will be any difficulty in obtaining all the farm help as the wages paid are very high, amounting to \$115 per month during the reaping of the harvest.

Supplying the Demand for Royal Purple Calf Meal

This baby food for young animals is partially pre-digested, and can be fed to the youngest animals with perfect safety. It will NOT cause diarrhoea or bowels trouble, which are serious ailments in young animals. Royal Purple is a sure preventive for scouring.

Calves Gain Rapidly Without Milk

When the calves are 3 or 4 days old they can be fed Royal Purple Calf Meal and raised just as well as on a drop of milk. What prominent breeders remark: "Mr. G. W. Collins, Paisley, Ont., writes: 'I have used your Calf Meal, I think you have the best on the market, as people who have bought it give it great praise. Some have taken their calves better than I have, did while using your Calf Meal and water, and say they are doing as well on it as they did on the whole milk.'"

To Whom It May Concern

This is to certify that I have secured your "Royal Purple" Calf Meal from your agent, Mr. T. C. Nichols, of Lacombe, and can speak of this meal in the highest terms. I have used other calf meals, but this one is the best. I have never seen a calf gain more rapidly and thrive better than mine, did while using your "Royal Purple" Calf Meal, and I cheerfully recommend it to all my stockmen who wish to raise large, healthy calves. —Stanley W. Dyer.

Note—The above Mr. Dyer keeps a large herd of purebred Holstein cattle, and is an excellent authority on calf feeding.

Royal Purple Calf Meal is equally good for young calves, lambs and young pigs. Put up in 25-lb., 50-lb. and 100-lb. bags. Secure it from our dealer in your town.

FREE BOOK

Send for our 80-page book which describes the common diseases of stock and poultry, also methods of feeding and our many products. Get a copy to-day.

GRAIN GROWERS

ARE NOT READY

YET FOR POLITICS

Joint Meeting of Saskatchewan Boards

Decides Time Not Opportune.

Regina, July 30.—Grain growers of Saskatchewan have decided not to enter provincial politics yet. After a two-day session meeting of the Saskatchewan Grain Growers Association passed the following resolution: "Whereas, the association in convention, held at Saskatoon, in February last, resolved that the matter of formulating a provincial political platform be delegated to the central board, and that the board of the women's section be requested to convene with it; and

"Whereas, this meeting of the two boards is now in session in accordance with the said instructions; and

"Whereas, in order to ascertain what the locals of the association desire to have included in such proposed platform, every local was circulated with a request that it make recommendations; and

"Whereas, it would appear that the locals in general have not as yet given full consideration to the many matters involved in the proposed undertaking; and

"Whereas, it may not be presumed that the association contemplates abandoning the character of being an organization for all the farmers without regard to their political affiliations.

"Therefore, this conference does not deem it wise to declare itself on or to include in a programme of legislative demands for the association any matters other than those already approved by it in convention.

"Furthermore, this conference recommends all locals that they make a thorough study of provincial legislative problems with a view to forwarding their recommendations to central in time for full discussion and consideration at the next annual convention."

TEACHERS NOT YET DECIDED ON

SALARY DEMANDS FOR 1921.

Toronto, July 29.—Women teachers of Toronto have not pledged themselves to ask for "double their 1914 salaries." In fact said Miss Ina Nichols, president of their association here, "double their 1914 salaries would not amount to as much as they get now."

Miss Nichols said that the association had not yet considered what their demands for next year would be.

M.D. OF PINE LAKE

At the meeting of the Municipal District of Pine Lake held on Tuesday, July 27, 1920, the following were present: In the chair, Councillors Reay, McKinnon, Walde, Darragh and Pixley.

The Secretary was instructed to write Mr. C. E. Atter asking him to appear before the Council regarding his application for a compromise on the taxes against the property of the late Lieut. Carriek; that Mr. Chas. Greenham be advised that it would be necessary for him to maintain gates on the trail.

Reeve Fiske reported that he and Councillor Reay had taken up the matter of opening a road beginning at the northwest corner of 17-28-26, W. 4th, and leading in a direct line south to the southwest corner of the same section. Councillor Reay will take steps to have this road opened up sufficiently to allow the children to get to school, and next year the road will have attention in the regular course.

Correspondence was read from the City of Red Deer re bridge on the road allowance south of town; from L. F. W. Tetley for application for grant to fence the road through the S.E. 3-37-25, W. 4th, and for permission to fence and use the road allowance between the S.W. 2 of 2 and the S.E. 3-37-25, W. 4th; from the Provincial Medical Health Officer re cases of scarlet fever.

Mr. Tetley's application was left in the hands of the Reeve.

The Council resolved itself into a Court of Revision and disposed of a number of appeals.

The Secretary will purchase a set of steel dies for marking tools and machinery.

Mr. Darragh will purchase a road drag for his division.

The Department of Public Works will be asked to drive piling for bridge between section 36-37-27-4 and section 1-38-27-4, using material from the bridge east of the Soldiers Hospital, the work to be done immediately following the work on the latter bridge.

Accounts and pay sheets were presented and ordered to be paid.

The next meeting will be held at Red Deer on August 31.

ECONOMIC USE OF FRESH

FOOD SUPPLIES

Both Greece and Egypt Make Inquiries as to Big Wheat Purchases.

Householders of the province are at present faced with a difficult situation on account of the high cost of certain food materials. Imported fruit is scarce, and is considerably higher this year than usual, and sugar is at present very high and is said to be going higher. The high cost of these combined materials is going to make home canned fruit very expensive. Commercial canned fruits and vegetables which usually make a certain proportion of food supplies for all households are likewise very high, and the prospects are that varied table supplies are going to be harder to secure and harder to pay for than they have been even during the past two or three years.

It would seem more necessary than ever to make economic use of home-grown and wild fresh summer foods. The crop of wild fruit this year is good and is available to country households at least. The knowledge of the handling of fruits of all kinds in modern canning is such that they can be used with very little sugar.

Similar progress has been made in the economical use of fresh vegetable foods and the practice of saving corn, desirable garden stuff as young beets, peas, beans, corn, cauliflower, etc. is very rapidly on the increase.

There are no doubt many people here who still do not make the best use of these supplies in carrying over into winter the benefits to be derived from fresh vegetable foods. Excellent use can be made likewise of the practice of drying in the case of fruits particularly.

The Provincial Department of Agriculture issues two bulletins, one on the home canning of vegetables, fruits and meats and another on the home drying of fruits and vegetables, that may be had by return mail by dropping a line to the Women's Institute Branch of the Department of Agriculture, Edmonton, Alta.

J. McCaig, Publicity Commissioner and Editor of Publications.

PROHIBITION CAMPAIGN

Officers and Committees are Elected

The Prohibition campaign committee met in the schoolroom of the Methodist church on Tuesday evening, July 27, to receive the reports of the striking committee. The following were present: Revs. Brown, Armstrong and Metcalf, Mr. and Mrs. J. J. Gaetz, Mr. and Mrs. McGregor, Mr. E. R. Hill, A. D. Broughton, Mr. G. W. Johnson, Mr. L. McLean, Mrs. McVicar, Mrs. Searancke and Mr. A. W. Willson.

Mr. Brown was requested to act as chairman.

The following officers were elected: Chairman—Rev. W. G. Brown.

Vice-Chairman—Mr. M. McGregor.

Assistant Secretary—A. W. Willson.

Treasurer—Cliff Malcolm.

Finance Committee—A. H. Moyes, C. McLean, E. M. Smith, Reg. Taylor, O. W. Thorne, Rev. Metcalf, Rev. Armstrong, Rev. A. C. Collier, Rev. Father Vein.

Organization Committee—J. R. Weston, J. J. Gaetz, M.P.P., J. W. Broughton, E. R. Hill, A. H. Heyworth, H. E. Calendar, Geo. W. Johnson, A. W. Willson, Pas Carroll.

Women's Committee—Mrs. F. W. Gaetz, Mrs. J. McVicar, Mrs. McMillan, Miss A. Ramsay, Mrs. J. J. Gaetz, Mrs. McGregor.

The Propaganda, Organization and Women's Committees were authorized to add to their numbers.

A motion to have all monies raised in the constituency pass through the hands of the local treasurer, and instructing him to retain a minimum of \$200 on hand, was adopted.

Messrs. J. J. Gaetz, McGregor and A. W. Willson were appointed a committee to look after the matter of enumerating, etc.

It was agreed to devote the open collection of the evening union service held in the Chautauque tent to the Prohibition Campaign.

The matter of procuring a speaker to take charge of the union services was left in the hands of the Ministerial Association.

Spending The Corset Dollar

EVERY woman realizes that this is the day of the "fifty-cent dollar." If you spend your corset dollars for a garment that does not wear well, that does not give you satisfaction, it is an extravagant corset at any price. You can spend your corset money so every dollar will have its full purchasing power of 100 cents if you will be very particular about the corset you buy.

"GETTING your money's worth" in these days of increasing costs and the diminishing value of dollars, as it applies to corsets, is not so much in the price you pay as in the garment you buy. The corset you discard after a few uncomfortable wearings or the corset you continue to wear at the expense of your appearance, health and peace of mind, is the corset you cannot afford. We assure you that every

GOSSARD French CORSET

is worth every cent you pay for it—worth it in style; worth it in comfort; worth it in wearing service.

There is not a corsetiere in our corset department but will take a personal interest in helping you spend your corset dollars wisely.

MODEL 388—A corset for the tall, heavy figure. This model is heavily boned, especially at the back, to care for the woman of long, full proportions below the waist line. The flat back ends in a three-inch section of elastic. There are three hooks and eyes and three sets of hose supporters. In plain White Contil; sizes 24 to 36.

Priced at \$6.50

Foot Expert Here

A specialist from Chicago loaned to this store by

Dr. Wm. M. Scholl
the recognized foot authority, is here now. He will be here only

so foot bothered people should lose no time in coming to see him.

Examination and Advice Absolutely FREE

This expert knows all about feet. He knows the famous Dr. Scholl methods of correction and he knows that

There is a **Dr. Scholl** Application of Remedy for Every Foot Trouble

Let him examine your foot and tell you what is the trouble, the cause and the way to quickly correct it. Let him demonstrate on your own foot that you can gain

Foot Comfort

Immediately. You don't have to wear "irresky" or loose shoes. The Dr. Scholl plan is to give foot comfort while you wear the stylish, well fitting shoes you like.

All Welcome. Come In.

FOOT SPECIALIST

STOP LOOK and LISTEN
before purchasing a baking powder that may possibly contain injurious ingredients. Many food scientists claim that baking powder containing alum is unsafe for use in food. The mere fact that some brands of baking powder have the words "No Alum" on the label is not sufficient proof that they are what they are represented to be. Our chemists find a good many have "No Alum" on the outside but large quantities of it inside.

AGAINST BONUS AS LURE TO GET NEW INDUSTRIES

City Fathers at Convention of Municipalities Almost Unanimous.

Quebec, July 25.—The twentieth annual convention of Canadian Municipalities in session here has placed itself on record as opposing bonuses by municipalities as an inducement to industries to establish plants. At yesterday morning's session the question was dealt with briefly, but was fully considered at the afternoon session when a resolution was carried with only one dissenting vote. At the opening of the afternoon session, J. D. Saunders, city clerk of Camrose, Alta., and secretary of the Union of Alberta Municipalities, spoke on the recent progress of western municipalities. He went fully into the inflated valuation and taxation system, as well as the lack of population, remarking that the total population of Alberta was not as large as that of Montreal. He said that until the west has a population commensurate with its vast areas there was no use of talking of establishing industries.

tries. J. A. Bayne, of Saskatchewan, discussing the bonus question, remarked that if firms were not strong enough to stand on their feet without the aid of bonuses, it did not speak well for these firms.

Alderman Dickson, of Montreal, expressed his position emphatically. He pointed to Montreal as an example, saying that the annexation of smaller municipalities obliged Montreal to acquire their liabilities. A firm which could not do business without a bonus was not worthy of consideration, he said.

Alderman Collier of Quebec, also spoke against bonuses and likewise municipal tax exemptions which he held were equally vicious.

AMUNDSEN LEAVES ON 5-YEAR CRUISE

Nome, Alaska, July 25.—Röald Amundsen, Norwegian explorer, will remain in Nome for two weeks and then will steer his vessel into the Arctic ocean for a five-year expedition, he announced today. Amundsen arrived in Nome Tuesday evening from Sledge Island, where the "Maud" was anchored. The two weeks will be occupied in provisioning the ship for her long cruise, the explorer said.

NEW MAP ISSUED BY GOVERNMENT

A new edition of a map of Manitoba, Saskatchewan and Alberta, giving the number of quarter-sections available for homestead entry in each township, with the boundaries and offices of government land agencies, has been issued by the Natural Resources Intelligence Branch of the Department of the Interior. This new edition clearly indicates all railways, forest reserves, parks and Indian reserves, also the land which has been reserved for soldier settlement purposes. The size of the map is 24 inches by 36 inches, and the scale is 35 miles to one inch.

The importance of the new edition at the present time is apparent to prospective settlers, officials of banks, railway companies and land agencies. In fact everyone interested in the development of land in the western provinces, which is known as the "Small Land Map of Manitoba, Saskatchewan and Alberta," may be obtained free of charge by applying to the Superintendent of the Natural Resources Intelligence Branch of the Department of the Interior, at Ottawa.

JUST TONS OF PHOSPHATE ROCK IS TINY NAURU

Is Worth Many Millions and Now Under British Administration.

In an article contributed to the London Daily Mail, Thomas I. McMahon, R.I.C.S., gives what may be assumed to be an authentic account of what he calls "the little spot of earth that nearly upset the peace conference," a tiny island in the loneliest part of the Central Pacific. This island, called Nauru, is the writer adds, worth many millions of money on account of its millions of tons of phosphate rock. "A more pinch of this magic tropical product put into the most impoverished soil has an amazing effect upon plant life. In Australia, where some 200,000 tons is used annually, it doubled the wheat crop."

"In Japan, farming cannot now do without the aid of this fertilizer; Japanese farmers are keen buyers of the product. Indeed, every nation that farms extensively is placing orders for phosphate rock."

"Nauru is only 15 miles in circumference, 5,000 acres in extent. It is 33 miles to the south of the Equator, 2,300 miles from New Zealand, 2,000 miles from Australia, 3,000 from Japan, and 4,700 miles from America. It is the treasure island Australia claims. New Zealand wanted, and Japan demanded as part of the Marshalls, but to which Britain established the most right."

Before the war Nauru was German territory and attached to the German group of islands, the Marshalls. Under German administration the natives were cruelly neglected and their number dwindled to a mere 2,000. Today the energetic and humane British administration the natives are one of the healthiest and most progressive races in the whole South Pacific. They have been weaned from their idle ways, and encouraged to improve their villages, make and mend roads, and give up the inhuman practice of burying their dead in their houses or at the front of their back doors.

Hundreds of natives now work in the phosphate fields, are paid very high wages, and have the most comfortable living conditions. "The native coconut plantations, neglected in the German time, are cleared, improved and profitable. The natives are renowned for their pleasant manners—one reason why the original name of the island was 'Pleasant.'"

MEXICAN PRESIDENT RECEIVES CANADIAN COMMISSION TODAY

Mexico City, July 25.—President de Huerta today received the Canadian agricultural commission, with which he conferred concerning a project to bring 10,000 Canadian farmers to the state of Coahuila. The commission received from the president all kinds of guarantees and encouragement.

PREPARING FOR FLIGHT TO MAP OUT AIR ROUTE.

New York, July 25.—A fleet of three all metal monoplanes were ready early today at Central Park, Long Island, to take off for San Francisco, carrying the first bag of mail ever to cross the continent by airplane. The trip is for the purpose of mapping out a regular aerial mail route, which is scheduled to open the first week in September.

FURTHER CONSTRUCTION OF P.G.E. FORESHADOWED

Victoria, July 25.—Further construction of the Pacific Great Eastern Railway is foreshadowed by a request from Hon. John Hart, provincial minister of finance, for bids for a loan of \$3,000,000 to be devoted to construction work on the railway.

FARMER IS HUNGRY ALL THE TIME NOW

Had No Appetite and Was All Run Down—Feels Fine Since Taking Tanlac.

"I am feeling as fine as I ever was in my life, and the reason for it all is 'Taniclac,' said Adrien Blackburn, a prosperous farmer living at Beaumont, Alberta, recently.

"For nearly two years," he continued, "I suffered all the agony that goes with stomach trouble, backache and headaches, and the strain was so great that it almost made a complete wreck of me. Nothing I ate tasted right, and my appetite was so poor that what little I forced down barely kept me on my feet. Right after eating I would bloat up with gas and feel so miserable and nauseated I would have to lie down. I was absolutely run down, a great deal under weight, and at one time I had to lay off from work for a month. I had sharp pains across my back, and my head ached nearly all the time, and some days it hurt like it would split. I just had to grit my teeth and force myself to do my work, for it was almost more than I could stand."

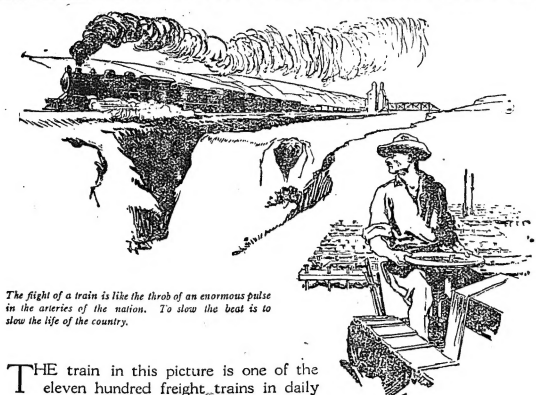

"My father suggested that I try Tanlac, but as I wanted to feel sure that I was taking something that would help me, I went to a doctor, and he recommended it also. So I began taking it, and on the fourth day I began to feel better. I have taken three bottles now and I eat like a bear. Why, I can hardly get enough to satisfy my appetite. My digestion was never better and I never suffer after eating. Those headaches have left me, and the pains in my back have entirely disappeared. I have gained nine pounds in a little over three weeks, and can do as hard a day's work as any man. Yes, sir, Tanlac has fixed me up so fine I will always be glad to say a good word for it."

Taniclac is sold in Red Deer by Gaetz-Corsett Drug & Book Co., and by the leading druggist in every town.

CARSTAIRS FARMERS AFFECTED BY HAIL CLAIM ENTIRE LOSS

Most of the farmers who were struck by the hail storm in the Carstairs district are claiming a hundred per cent. loss, was the information given on Wednesday morning to the Calgary Herald by E. H. Malcolm, of the Hail Insurance Board of Alberta. It so happened that one of the adjusters of the board was in that district and reports that this is a fact. The worst of the storm, according to the reports that have so far come to hand, appears to be east of Carstairs. Mr. Malcolm said that he could not, with the present information he has, give an idea of the damage done.

No information is to hand of any hail at Camrose, though claims have come in from Wetsaskiwia, and are pretty well confined to that district. These claims range all the way to a 100 per cent. damage. Some are as low as 35 per cent. and others up to 98 per cent. The 100 per cent. claims are easy to adjust as a field of wheat completely flattened out is entirely lost. The other claims are often subject to some revision, and this is not known until the adjuster has paid his visit.

The flight of a train is like the throb of an enormous pulse in the arteries of the nation. To slow the beat is to slow the life of the country.

THE train in this picture is one of the eleven hundred freight trains in daily service in Canada.

It consists of one heavy-duty freight engine and 45 standard box cars.

It can carry 2,000 tons of wheat.

In 1913 its engine could have been built for \$34,700—to-day \$81,000; its box cars for \$1,138.85 each—to-day \$3,797.50.

In other words the rolling stock alone in the movement of 2,000 tons of wheat has increased in cost from \$85,948.25 to \$251,887.50 or 193.1%!

The labor bill of the railways has risen in the same period from \$115,000,000 to \$231,000,000,—101%!

The cost of rails for a mile of track has gone up from \$9,497 to \$19,680—107%!

No cost has been unaffected by the general rise.

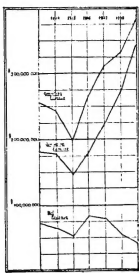

Operating expenses continue to rise more rapidly than Gross earnings. Net earnings are sinking at an alarming rate.

These are the facts that lie behind the application for increased freight rates for the railways.

*Estimated

This is the record of a series of advertisements published under the authority of
The Railway Association of Canada
formerly the CANADIAN RAILWAY WAR BOARD

Explanation of Chart:
Top line shows the rise of Gross earnings.
Middle line shows the more rapid rise of Operating Expenses.
Bottom line shows the downward plunge of Net Earnings; as a result of the rise in the middle line—Operating Expenses.

Farmers! ! LOOK HERE !

Foster Predicts Severe Hail Storms During August

Never before has there been so much HAIL INSURANCE written. Already severe hail storms have visited sections of Alberta and great losses sustained. Many farmers are now applying for additional insurance; this is due to the fact that crop conditions in general are exceedingly good, and also on account of the increased value of the crop per acre over that of a few years ago.

The crop is in the head now, and the only hazard a farmer has to contend with is HAIL. Some may say the hazard of frost, but a frozen wheat or oat crop is valuable and worth carrying insurance on.

There is no remedy against these destructive storms except INSURANCE, and we have the strongest MUTUAL and BOARD HAIL INSURANCE COMPANIES doing business in the Province. Our rates are the lowest and all adjustments are prompt and liberal.

DENVER STREET CARS ARE IDLE

Denver, Col., Aug. 2.—Not a street car has been operated in Denver since 5 o'clock Sunday morning, when a strike of car men employed by the Denver Tramway company was called. One of the electric interurban lines out of the city, however, was operating.

1,100 car men are affected by the strike order. They are demanding an increase in wages to 75 cents an hour. They are now getting 65 cents an hour.

Has removed his shop to one door west of J. C. Brazier's Store, where he hopes to see all his old customers.
Repair Work a Specialty.
A guarantee of good service goes with all work.
Remember the place:
One door west of Brazier's.
ROSS STREET

OUR THREE RULES

In conducting this Lumber business, we have three rules.

- First—the quality must always be there.
- Second—the price must always be right.
- Third—satisfaction must be a part of every sale.

By rigidly following these rules we have built up a patronage that swears that no other yard fills their orders for Lumber and Building Material as near perfect as we do.

Our customers' boosting is our best asset, and if you are not now a patron of ours, we'd appreciate the opportunity of selling you once, and thereby make you a permanent one.

EVERYTHING IN GROCERIES AT HAMILTON'S

We BUY and SELL our entire stock of GROCERIES SO OFTEN, that your orders are sure to be filled with NICE, FRESH GOODS at a reasonable price. Try our special blend Tea at 70c per lb. Hamilton's Perfection Coffee at 60c per lb. is good value.

We are agents for FIVE ROSES Flour (the world's best); also for Bran and Shorts.

All orders given, either in person or by phone, will receive prompt attention and delivery.

EYES
OUT OF TOWN WEARERS OF GLASSES should bear in mind that we can give prompt service in repairing broken lenses and repairing frames. We don't need your prescription as long as you have the broken lenses.
WE ARE SIGHT SPECIALISTS.
H. H. HUMBER
Jeweler and Optometrist - RED DEER

Superior Funeral Service.

Service such as we render is never the result of chance. Not even the possession of perfect appointments and the most complete and modern equipment could account for it unless accompanied by a high degree of devotion and the expenditure of infinite care.
